

Verify in the back for the hardware

In order to group the hardware for your furniture, we have inserted it into the back of the furniture. You need to take out the plastic bag in the back (verify all backs). If there are no bags, your furniture does not require any hardware.

There may be in the back:

-Nothing at all, your furniture is complete, no plastic bag.

-Bag with small legs for adjusting the height of the chair.

-Bag with locks for sectionals.

-Hardware bag to assemble the swivel base.

-Bag with AC DC power supply unit.

-Bag with Battery.

You will find all the installation instructions in the 'Instruction guides' tab of our Customer Care section.
