

How to install and or remove a stationary back

IMPORTANT:

It is recommended to be 2 people to complete all the steps.

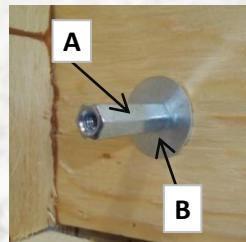

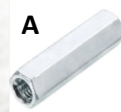

Required tools (not provided):
A ratchet with 7/16" socket or a drill-driver.

1-Tilt the furniture forward. Open the zipper under the cabinet.

2-Locate the nuts (A) and the flat washers (B). Located below the back.

3-Loosen with ratchet with socket 7/16" . Take off the nuts and washers. Remove the back by lifting it up.

To install the back: start first with steps A followed by step B.
